

# Pasture Raised Turkey

## Champoeg Farm

est 1856

Our flock of broad breasted bronze turkeys are raised all naturally on our pastures which imparts to them an amazing flavor and texture. This method is better for the land and for the birds. They are dressed out and frozen in early Fall. Customers who have enjoyed birds from our farm are amazed at how moist and flavorful our turkey is! There is nothing like a pasture raised bird to make this holiday a memorable one for you and yours.
