Pasture Raised Pork

Champoeg Farm
est 1856

Our Berkshire Hogs are all natural, with no antibiotics, growth hormones, or high stress living conditions. They are not confined onto concrete slabs, but roam freely in wooded paddocks, foraging on roots and grasses giving the pork much more texture and flavor than conventionally raised. Its great to see the animals run, root in the dirt and play around. Our Berkshire pork is available in wholes or halves and cut, wrapped and cured to your specifications. Pre-order only with a \$100 deposit.

Please specify Summer or Fall batch. Actual pickup dates to be determined.
